DETAILED ACTION

- 1. This is in response to Applicant's response filed 27 January 2005, in which claims 1-9 and 20 have been selected. Claims 10-19 are canceled.
- 2. Claims 1-9 and 20 remain pending for examination.

REASONS FOR ALLOWANCE

3. With respect to claims 1-9 and 20 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 20, the claimed features "a monitoring processor which monitors issuance of a file access request made by means of said input/output processor, notifies said access controller of an issued file access request and receives the result of validity determination from said access controller; and an exclusive controller which protects said memory's storage regions in use by said input/output controller, access controller and monitoring processor and shields said policy file from an access execution processor other than said input/output controller, access controller and monitoring processor, wherein: said policy file contains information as an access control policy to identify the access request source, access execution processor and access type for the file to be accessed" in conjunction with other elements of the independent claims would not found anticipated or obvious over the prior art made of record.

Art Unit: 2162

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

The closest prior art, Ross et al., U.S. Patent Number 6,643,648 relates to the field of controlled-access database systems for securely maintaining data records in an otherwise unsecure location. Ross et al., U.S. Patent Number 6,654,864 relates to data storage and more particularly to a method of providing restricted write access on a data storage medium but fail to teach the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
